

Sample of Certification Mentoring Call Times

IMPORTANT NOTES: This grid and accompanying notes are just an approximation of the call times and the adjustments we will make because of daylight savings time shifts. If you are outside the US there will be call time adjustments in Fall and Spring. US call times could also shift up to an hour forward or backward to adjust for international time changes. Please choose at least 2 calls, preferably 3, that could work for you.

We cannot guarantee any one call will fill. If none of these calls will work for you, please let us know two other preferred times. We cannot guarantee that each applicant will be given a call time that works for them, but we'll do our best! Your particular call will be decided and finalized by August 15th. If you come from a time zone other than these, please use a Time Zone Calculator to translate the time of calls from Pacific Time Zone to your own.
